ABOUT ME

DevOps engineer with hands-on experience in blockchain infrastructure, Web3 technologies, and distributed systems. Skilled in managing deployments, automating operational processes, and supporting reliable environments. Actively involved in the Solana ecosystem and motivated to contribute to innovative decentralized applications..

EXPERIENCE

DevOps Freelance

Freelancing

Berlin, Germany

2023-2025

- Designed and operated high-availability systems for blockchain and Web3 clients.
- Implemented CI/CD pipelines and automated infrastructure using Ansible and custom scripts.
- Optimized Linux server performance and managed network configurations for reliability.
- Provided remote support and troubleshooting for distributed teams.

IT Support 3rd

IRSA

Buenos Aires, Argentina

2021-2023

- Delivered end-to-end IT support across hardware, software, and network layers, improving issue resolution time by proactively identifying and addressing root causes.
- Monitored IT infrastructure and services to generate actionable incident reports, leading to measurable improvements in uptime and response SLAs.
- Drove efficiency by identifying and implementing process improvements across Active Directory, SQL databases, and application deployments.

DevOps Engineer Trainee

Buenos Aires City Government

Buenos Aires, Argentina

2019-2020

- Automated development workflows using Docker, Git, and virtual machines to streamline builds and deployments.
- Implemented production-grade APIs and end-to-end CI/CD pipelines across AWS and GCP environments.
- Deployed and maintained observability stacks (ELK: Elasticsearch, Logstash, Kibana) to ensure system reliability and performance.

SKILLS

Skills: AWS, C++, Java, Next.js, PostgreSQL, IT Operations, Linux, Blockchain

PROJECTS

Pañuelo

2025

Developed 'Pañuelo Digital', a privacy-focused Solana-based platform designed to protect activists and journalists through secure, censorship-resistant evidence storage and anonymous communication.

EDUCATION

42 Berlin, Berlin

Software Engineering

2023-2024

María Sánchez de Thompson, Buenos Aires

Computer Technician

2013-2019
